1. Objectives of RC54

Research Committee 54 on The Body in the Social Sciences (hereafter RC54) has been established at the First World Forum of Sociology (Barcelona, 5-8 September, 2008) in accordance with article 4 of the Statutes of the International Sociological Association (hereafter ISA). Its general objectives are to promote high quality research on the body and the embodiment in sociological theorization, providing a vital forum for those conducting research on the body.

The RC54 studies are extended to all societies, all cultures in the present and the past, all religions, without exclusion of races, ethnicities, human practices and beliefs. In its structure, it recognizes the aspirations of sociologists in all parts of the world and endeavours to support and strengthen the free development of sociology in cooperation with similar associations of social scientists studying the same subject.

2. Office bearers

The Board of RC54 elected for the term 2006 to 2010 is:

Board 2006-2010

President

Bianca Maria Pirani, “Sapienza”, University of Rome, Italy

Vice-President

Thomas S. Smith, University of Rochester, US

Secretary

Nicola Porro, University of Cassino, Italy

Treasurer

Chris Speed, Edinbrough College of Art, UK

Board Members

Roberto Cipriani, University of RomaTre, Rome, Italy

Carlo Donolo, "Sapienza", University of Rome

Devorah Kalekin-Fishman, University of Haifa, Israel

Roberto Motta, University of Recife, Brazil

Ivan Varga, University of Queens, Toronto, Canada

3. Editorial

This first newsletter of RC54 for 2010 is the last issue under the current board of RC 54. It contains a call for nominations for office bearers for the new term from 2010 to 2014 as well as the programme for the XVII WorldCongress of Sociology in Gothenburg, Sweden, 11 to 17 July 2010.

We trust that the direct contact at the Congress would provide an opportunity to share ideas and reflect on developments and trends in the field. The final session for the Research Committee at the Congress will either provide an opportunity to conduct the business of the research committee, or be a reception where RC54 members can engage with each other and continue dialogue from the sessions that were held. Whether this last session is a business meeting, reception or a combination of both, please attend it if you are in Gothenburg.

Although we do not have any contributions written in French or Spanish for this issue I do hope that we will be able to increase the number of such contributions in the newsletter in future. Please send contributions for inclusion in the newsletter to the editor. Once the elections for the new board have been held you will be informed about whom to contact in this regard. The following time table applies provisionally:
*Issue Date Submissions End of August/Beginning of September May to mid-August
End of November/Beginning of December September to mid November*

4. President's Remarks

I hope all of you are planning to attend the upcoming ISA World Congress of Sociology in Gothenburg, Sweden, July 11-17, 2010. In this newsletter, you will see that RC 54 has 13 interesting paper sessions on the program. Please plan to come to as many of these sessions as you can. The discussions are always stimulating.

Also, very important, is our Business Meeting, which will be held on Friday, July 16, 17:45-19:45. At this meeting we will elect 4 Regional Representatives to the next Board of RC54. We need your participation to secure the future of RC54 Finally, you will see in this newsletter a call for nominations for our next President and next Secretary/Treasurer. Please send us your nominations as soon as possible.

5. Contributions

We submit you the first RC54 book published on December 2009 by the American publisher University Press of America.

Acting Bodies and Social Networks: A Bridge between Technology and Working Memory (two volumes) (Paperback). Edited and introduced by Bianca Maria Pirani & Ivan Varga, University Press of America, Lanham, Maryland, December 2009.

"This broad and insightful collection of scholarship will establish the basic directions of theory and research on the body. essential reading for those concerned with the body, self, identity and culture."—Lauren Langman, Professor of Sociology, Loyola University of Chicago

Acting Bodies and Social Networks analyzes the complex interactions of body, mind and microelectronic technologies. Internationally renowned scholars look into the nature of the mind - a combination of thought, perception, emotion, will and imagination - as well as the ever-increasing impact and complexity of microelectronic technologies. The proliferation of these technologies facilitates a profound change in the boundaries between bodies and technologies. These technologies expand the temporal and spatial existence of humans; today, people can instantly communicate all over the world and overcome time and space restraints by using the latest available microelectronic technologies. The first volume, *The Body as Social Icon*, examines how memory is affected by the new technology and the related theoretical issues while the second, *Mapping Bodies in a Networked Space*, deals with the influence of the new technologies on everyday life practices. At the "information portal," the brain's capacity is losing its ability to retain information. In 2004, a number of well known neuroscientists, including Nobel laureate Eric Kandel, wrote a review about the ethical dilemma computer technologies raise, stating that "humanity's ability to alter its own brain function might well shape history as powerfully as the development of metallurgy in the Iron Age." **By introducing the concept of *acting body*, this book contributes to discussion concerning the future development of *Homo sapiens*. We consider the acting body as a *bridge* between technology and working memory, which entails a radical change in our approach to the social sciences.**

5. Announcements

Call for nominations.

The Board of RC54 is seeking nominations for the office of President of RC54 and for the office of Secretary and Treasurer of RC54. The President, the Secretary and the Treasurer will each serve 4 year terms beginning immediately after the 2010 World Congress in Gothenburg and ending after the next World Congress in 2014. Nominees must be members in good standing of both ISA and RC54. If you wish to nominate someone, please check with the person, first to be sure that he or she is willing to stand for election and serve if Elected.

6. *The XVII ISA World Congress of Sociology, 11 to 17 July 2010* RC54 has 14 scheduled sessions. This programme is listed below:

JULY 12 (Monday) 15:30-17:30

JULY 16 (Friday) 17:45-19:45

Session 14: This time slot will be either a reception for RC54 members or a business meeting.
